A screenshot of a web browser window titled "Login". The window has a standard macOS-style title bar with a red close button, a yellow maximize button, and a green window control button. The main content area contains two input fields: "Username:" and "Password:". Below these fields are two buttons: a green "Register" button on the left and a blue "Login" button on the right. The background of the window is light gray.

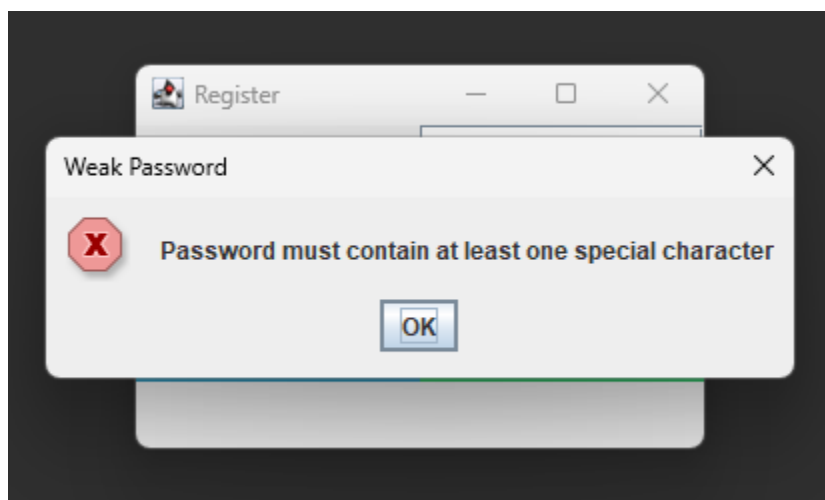

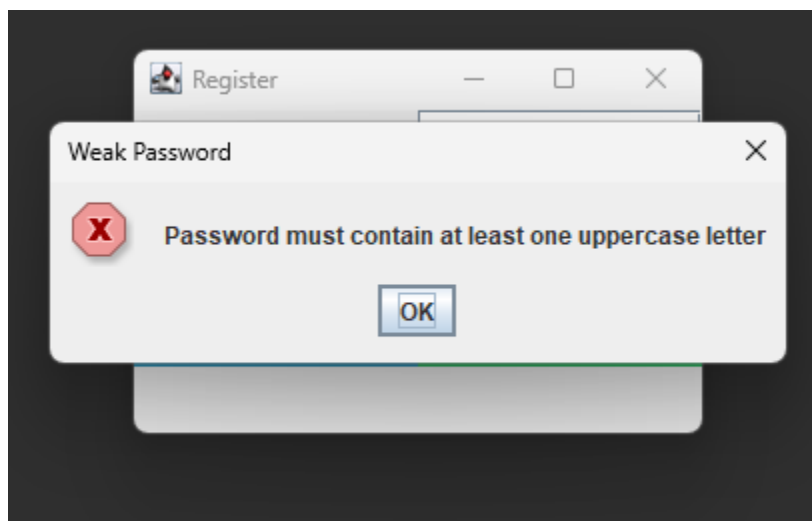

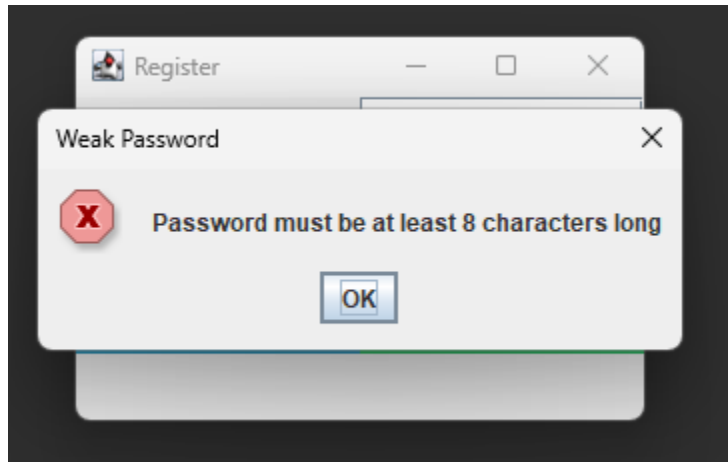

A screenshot of a web browser window titled "Register". The window has a standard macOS-style title bar. The main content area contains three input fields: "Username:", "Password:", and "Confirm password:". Below these fields are two buttons: a blue "Go back to Login" button on the left and a green "Register" button on the right. The background of the window is light gray.

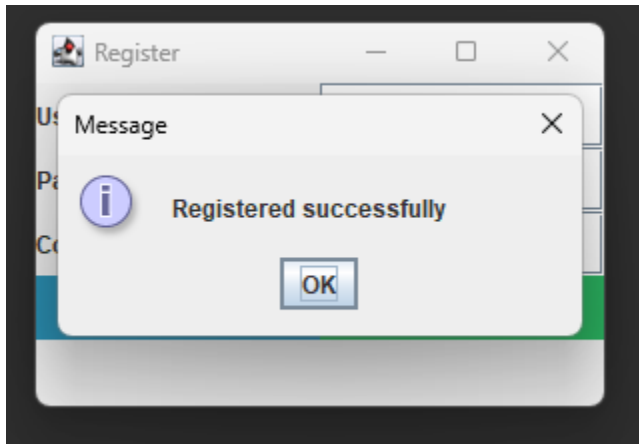

A screenshot of a web browser window titled "Register". The window has a standard macOS-style title bar. The main content area contains three input fields: "Username:" with the text "tom10", "Password:" with five dots, and "Confirm password:" with five dots. Below these fields are two buttons: a blue "Go back to Login" button on the left and a green "Register" button on the right. The background of the window is light gray.

A screenshot of a 'Login' window. It has a title bar with 'Login' and standard window controls. Below the title bar, there are two labels: 'Username:' and 'Password:'. To the right of 'Username:' is a text input field containing 'tom10'. To the right of 'Password:' is a password input field containing '.....'. At the bottom of the window, there are two buttons: 'Register' (green) and 'Login' (blue).

CS349 - Phonebook application screenshots

5/5/2024

Tom Steinman  
CS349 - Phonebook application screenshots  
5/5/2024

The screenshot displays the Phonebook application window. At the top, there is a form for adding or updating a contact. Below this is a table titled "Contacts List" showing three existing contacts. A message dialog box is open in the foreground, indicating that data was exported successfully. At the bottom of the application window, there are four buttons: Search, Delete, Export, and Logout.

CS349 - Phonebook application screenshots

5/5/2024

Email option has no functionality, I was not able to figure out how to use Java Mail API. My previous iteration of sending an email with the body of the email filled with the Contact List information broke after an update to Outlook.

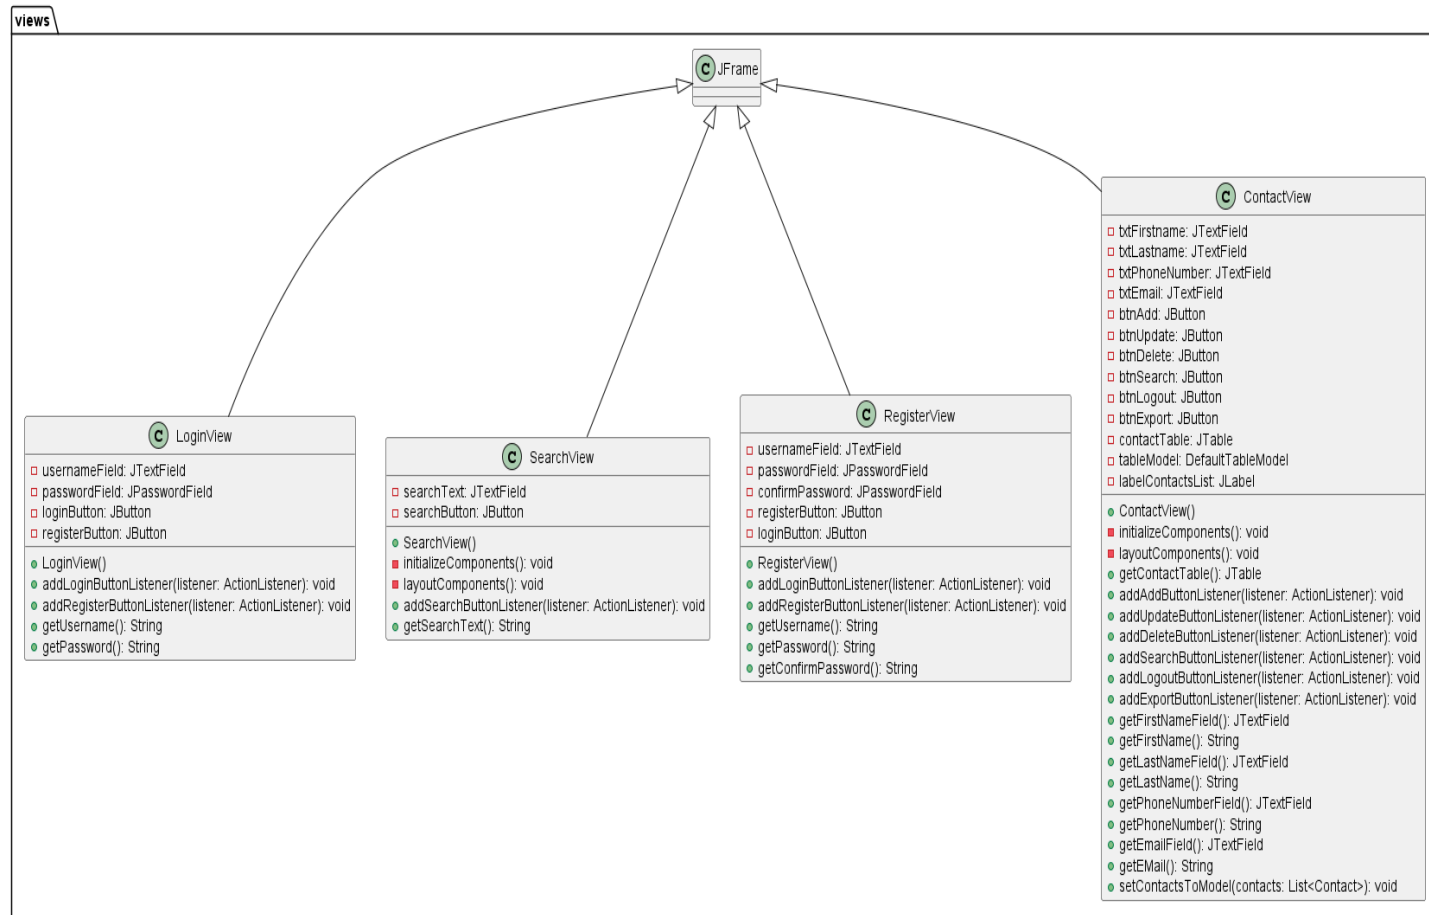

The screenshot shows a window titled "Phonebook" with a standard Windows-style title bar (minimize, maximize, close buttons). Below the title bar is a form with four input fields labeled "First name:", "Last name:", "Phone number:", and "Email:". Each field is a simple text box. At the bottom of the form are two buttons: "Add" (blue) and "Update" (green).

### Contacts List

First name	Last name	Phone Number	E-mail
Bobby	Dolly	4444444444	bobbyd@gmail.co...
Tom	Stine	4758889999	tommyS@gmail.c...
Amy	Lineman	4757889999	tommyS@gmail.c...

The screenshot shows a dialog box titled "Export Contacts" with a close button (X) in the top right corner. Inside the dialog, there is a green square icon with a white question mark. To the right of the icon is the text "Do you want to save the file locally or email it?". Below this text are three buttons: "Save File" (blue), "Email File" (blue), and "Cancel" (blue). The dialog box is overlaid on a larger window. At the bottom of the window, there is a footer bar with four buttons: "Search" (yellow), "Delete" (red), "Export" (black), and "Logout" (blue).

(.png file is located in zip folder for better view of models UML Diagram
